Subject: Microsoft Settlement

I am in support of this settlement just because I want the matter to go away. Let s close the book on this issue and let the market decide who the winners and losers not the government or states. This is a free market society and governments and states have no business or knowledge about technology. We spend too much time in litigation and not much time left for innovation and progress. All this cost tax payers millions of dollars for nothing only politicians and lawers got rich from it. I WANT MY TAX DOLLARS TO BE USED FOR SOMETHING MORE USEFULL (AND THIS LITIGATION IS CERTAINLY NOT USEFULL) OR GIVE ME MY TAX MONEY BACK.
